- IV. The purpose of the OMS is to coordinate regulatory oversight among its members, including recommendations to MISO, the MISO Board of Directors, FERC, other relevant government entities, and state commissions as appropriate to promote OMS members' interests on matters such as: (i) MISO markets, (ii) MISO's operations and transmission planning, (iii) FERC matters affecting the MISO region, and (iv) the jurisdiction and role of the MISO states to regulate and promote the electric utilities and systems within their respective boundaries.

- VI. Further, the OMS' members have the responsibility to supervise and regulate utilities participating in MISO to ensure their operation is in the public interest, and to promote adequate, economical, and efficient delivery of utility service in their respective retail jurisdictions.
- VII. As an organization comprised of members charged with representing the public interest in their respective jurisdictional areas, the OMS has a unique interest in the outcome of this case. Because no other party can adequately represent the

interests of the OMS and its members in this proceeding, the OMS should be permitted to intervene.

WHEREFORE, the OMS respectfully moves the Court for leave to intervene in support of Respondent and to participate in this matter with the rights accorded to an intervenor under the Federal Rules of Appellate Procedure and the Circuit Rules of this Court.

Respectfully submitted,
